Silver Plus Cover

**FROM SILVER, A SPECIAL FABRIC
TO FIGHT BACTERIA**

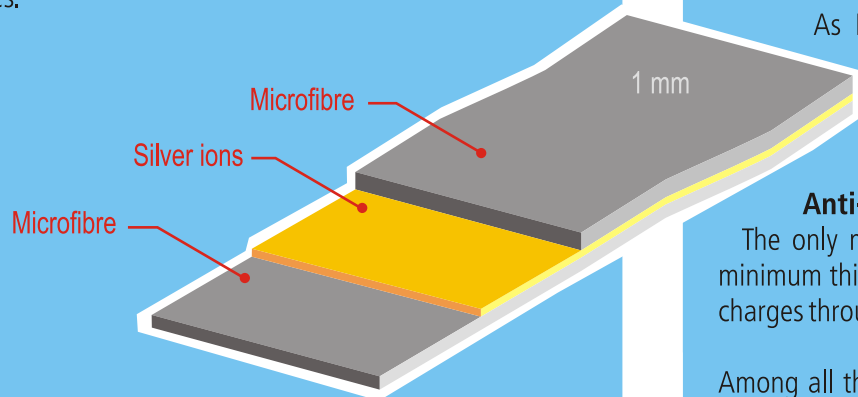

by
Hygienic Gusset System

SILVER PLUS COVER

SILVER PLUS COVER is special cover **adaptable to all the commercialised anti-sore cushions**, made by a special patented fabric based on the HYG system.

The Hygienic Gusset is an innovative fabric with silver ions. The silver ions give the fabric permanent and effective anti-bacterial properties, which proves particularly useful against heat and perspiration, preventing bad odours, allergies, skin irritations and most importantly pressure sores.

POSITIVE SILVER IONS

The fabric has been created using an ionic link between the adhesive matrix and the Silver ions.

These ions are well known throughout the scientific world as bactericides.

The positive ions in the element attract and suffocate enzymes from pathogenic bacteria in damp conditions, in particular bodily perspiration.

Modern Western medicine has recognised that silver is the most effective anti-bacterial agent amongst all natural remedies.

Today silver is used for its notable anti-bacterial properties in a wide range of sanitary products, from bandages to burn remedies, to catheters, etc.

In practice silver is used in all products where there is a risk of infections.

HYG SYSTEM FABRIC

Anti-bacterial

The anti-bacterial characteristics of HYG have been confirmed all over the world by prestigious medical institutions. Different studies show that when a product with this fibre is worn, the effectiveness is such that any perspiration is transformed in an anti-bacterial agent.

Anti-Odour control

As HYG fabric contains silver, it reacts with ammonia and denatured proteins creating a chemical bond, provoking an immediate reduction of odours.

Anti-static

The only method that can eliminate or reduce to a minimum this inconvenience, consists of dissipating the charges through conductive materials.

Among all the elements, silver has the highest level of electric conductivity. HYG therefore, has a high capacity of electric dissipation.

Using this fabric, SILVER PLUS COVER is :

ANTIMICROBIC - offering perfect protection against bacteria that cause bad odours.

100%.NATURAL - safe, containing no toxic or chemical products.

AN EFFECTIVE THERMAL CONDUCTOR - fresh in summer and warm in winter.

ANTISTATIC - Dissipates static charges.

THERAPEUTIC - Thanks to its conductive characteristics.

FAST - Eliminates 99% of bacteria in less than one hour.

SAFE and NATURAL - No toxicity risk for the end user.

Containing no alloys or metals that can cause allergy.

DURABLE - The silver is fused to a polymer in an irreversible manner.

Silver Plus Cover

The only universal cover with medical properties

Available measures:

30x30	(width from 28 to 32 depth from 28 to 32)
30x35	(width from 28 to 32 depth from 33 to 37)
34x35	(width from 32 to 36 depth from 33 to 37)
38x38	(width from 36 to 40 depth from 36 to 40)
38x42	(width from 36 to 40 depth from 40 to 44)
40x45	(width from 38 to 42 depth from 43 to 47)
43x41	(width from 41 to 45 depth from 39 to 43)
44x45	(width from 42 to 46 depth from 43 to 47)
46x41	(width from 44 to 48 depth from 39 to 43)
46x46	(width from 44 to 48 depth from 44 to 48)
